

PRESS RELEASE

Maassluis, May 25, 2012

Acquisition of MoPlan vehicle equipment by Modul-System Netherlands

Modul-System Netherlands will acquire MoPlan Vehicle Equipment in Maassluis on 1 June 2012. This acquisition is in line with the vision of Modul-System to create a European network of Service Centers.

MoPlan has for some time been promoting the Modul-System products in their range. Under the leadership of owner Rob van Duijnen the company has developed into a specialist in the installation of vans customized for each user and every industry.

"We have always been at the forefront with new ideas and concepts. The developments are going increasingly faster. By joining a leading European manufacturer you are in a much stronger position." Rob van Duijnen stated as the reason for the takeover.

David Mickelson, CEO Modul-System Sweden: "This acquisition suits our policy for an European network of Service Centers. It allows us to serve the customer better."

"The acquisition of an additional fitting facility is in line with our Turn Key philosophy for commercial vehicles" emphasizes Rutger Gielen, Sales Director of Modul-System Netherlands, "Additionally, through the MoPlan dealers we can expand our nationwide network."

After the acquisition Rob van Duijnen will concentrate further on the expansion of Motexion Vlaardingen, where they produce products for LCV cargo protection. Modul-System Netherlands will continue and expand cooperation with Motexion.

Rob van Duijnen thanks all relations who have contributed to the success over the last 19 years. David Mickelson welcomes these same relations in the team Modul-System, where they will be helped by the same familiar faces as at MoPlan.
